

# VCA CORAL ANIMAL HOSPITAL

# Cat Nap Inn

*the **Purrfect Place** where we love them like family.*

## Helpful Hints

Most **cats** are creatures of habit and do not like change of any kind. **Cat Nap Inn** is the **Purrfect Place**! We make it as calm and cozy as possible. We provide all that will be needed. But it can be very stressful! Even for the **Cooliest of Cats**. The following are a few things that may help with making the stay as stress free as possible for all.

**Carrier's** - are required for each **cat**. Soft-sided, two-door, top-load are preferred. This type of carrier can be opened and placed in the condo upon arrival. Then they can venture out when they are ready. When at home and at least a few days prior to check-in, you should keep the carrier out and open. Letting the naturally curious **cat** go in and out. For the more timid, you may need to use Feliway Spray (calming pheromone) and/ or food, treats, toys to entice them.

**Food**- As stated above they do not like change! Please bring the normal diet that they have been eating well at home. **Do not make any change just before their stay.**

**Bedding** - if they sleep on and love a small bed, blanket or towel, and/ or have their person sleep in an old t-shirt. When placed in the condo with them, will provide comfort of you and/ or home.

**Toys** - a special toy they love.

## Stay Calm!

They can pick up on your stress and anxiety
