CT/MRI Referral Form

When scheduling for an MRI or CT, the patient drop off is between 7:30 and 8 a.m. Because we are associated with an emergency hospital, imaging times are always subject to change as critical cases may take priority according to medical need.

In order to ensure that your patient is imaged in a timely manner, please perform all pre-anesthetic workup prior to sending the case. *If the pre-anesthetic workup is not done, the patient may need to be rescheduled to a different day.*

Pre-anesthetic workup includes:

1. Three view thoracic radiographs for animals older than 5 years of age, or any age animal with concern for cardiopulmonary disease, within a month of the procedure.
2. CBC and chemistry panel within a month of the procedure.
    a. Please note: if there are health status changes between the time of bloodwork and the time of appointment, more current labwork may be indicated.

If there are any concerns or logistical difficulties with performing these pre-anesthetic tests, please call to speak with the radiologist supervising the case before scheduling.

Please fill out our referral form with a detailed description of the case and email to **nwvsrecords@vca.com**, or fax to (503) 557-8672, along with labwork, radiographs, recent patient records, radiograph reports, etc. at least 24 hours prior to the scheduled appointment.

Should you have any questions, please feel free to contact the imaging team: (503) 656-3999.

Thank you for your referral

Sincerely,

Imaging Department
