Highlands Ranch, CO. 80126

Kennel Cough Informed Consent

Thank you for choosing VCA Mountainview Animal Hospital & Pet Lodge to care for your pet during your absence. We make every effort to ensure our facility is free of diseases including Canine Infectious Tracheobronchitis (Kennel Cough) and Canine Influenza (CIV). Despite our best efforts we cannot guarantee that your pet will not be exposed to a strain of “Kennel Cough” or any other respiratory virus that is **not covered by the current vaccine**.

With this being said, if your pet does present with signs of an upper respiratory infection (a dry hacking cough that ends with retch and/or nasooocular discharge) please call us as soon as possible. We need to be informed of any and all potential cases in order to safeguard the pets in our facility.

I, the undersigned, have been informed and fully understand that my pet could possibly contract Infectious Tracheobronchitis or Canine Influenza despite being vaccinated. In the event that my pet does become ill, VCA Mountainview Animal Hospital & Pet Lodge will evaluate at no charge but any diagnostics, medications, and /or treatment will be at my expense.
