Upon admission one of these professionals will provide your pet with a health examination. We strive to maintain a sanitary and healthy environment for our patients.

### Vaccinations:

Initial

All pets must be up to date on their vaccinations, and it is the owner's responsibility to make sure that proof of current shots is on file with the hospital at the time of admission. If vaccinations have been administered at another veterinary hospital and they are closed at the time of admission and proof of those vaccinations is not on file, the vaccines will be brought current at the time of admission and the client will be charged accordingly. Boarding animals less than five months of age is not recommended because they may not have developed complete immunity.

**Dogs:** Distemper, Parvo, Leptospirosis, Rabies, Influenza H3N8 & H3N2, and Bordetella

**Cats:** FVRC-P (feline Distemper) and Rabies

### Internal/External Parasites:

Initial

All pets must be free of parasites, including fleas and ticks. We require Simparica, SimpleGuard, and Bravecto flea remedies. **Negative stool test within the last 6 months required for dogs.**

### Rates and Payment:

Initial

Dog boarding rates are based on the room type. Other services provided to your pet during boarding are charged at regular cost. Payment in full is expected when your pet is discharged. A deposit is required for first time clients and extended boarding. Rates are calculated on a daily basis. Boarding is charged by the number of nights stayed.

### Medical Illness Policy:

Initial

One of the advantages of boarding your pet(s) at a Veterinary Hospital is that medical attention is readily available for our guests. **If your pet needs medical attention we will call the emergency number that was given to us on admission. If we are unable to contact you, your pet will be treated as we deem necessary, at normal hospital fees.** If your pet is currently on medication, please inform the receptionist.

### Inherent Conditions:

Initial

Occasionally pets may develop problems from environmental and dietary changes. **Signs may include: vomiting, diarrhea, coughing, sneezing and self-trauma such as scratching or biting their skin.** We take great care so that these problems won't occur and we treat our guests promptly, if needed. However, please be aware and understand that these conditions can develop and that the hospital is not financially responsible for these inherent conditions, if they do occur.

If you have questions about this, please discuss with the admitting technician. **The facility is not responsible for any items if lost or soiled.** Collars and leashes may not be left at any time.

## Abandonment:

Initial

Please notify us if there is any change of plans in your pet's scheduled release date. If you do not notify us of a change in your pet's departure date and either we do not hear from you or are unable to contact you or your authorized agent for a period of 14 days after your pet's scheduled release date, the Hospital will consider your pet abandoned according to the animal abandonment laws in your state. Please be advised that the pet owner will be responsible for the fees accrued and any other fees or legal services incurred by the Hospital as a result of the abandonment.

If you have any questions or problems, please call your caring VCA Simmons Barkers Hotel staff. Thank you!
